Director's Message...

The importance of mathematics has become indispensable. Nowa-days mathematics is in use some way or the other in almost all dimensions of the human creativity. The increasing popularity of the said subject and its application has changed the system in many ways. Notwithstanding these positive aspect and lack of guidance is the main reson that hampers students performance. The aspirants are the worst suffers of these short-comings. IMS devlivers effective guidance in order to cater to the needs of students.

"We aim to train rather than just educate."

K. Venkanna

IAS/IFOS MATHEMATICS

Mains 2023-24 with Foundation Course

(Optional)

by K. Venkanna

IMS is now Online with face to face!!!

- Feeling of offline classes in the online mode.
- O Classes via live interactive session.
- IMS has a full studio setup for video live interactive / conferencing with HD cameras and state of art technology.
- O So that your studies don't get affected by any future lock-downs or else.
- O The course will contain :
 - 1. Classroom Program
 - 2. Study Materials
 - 3. Test Series

FOR ATTENDING CLASSES:

MINIMUM REQUIREMENTS:

- 1. Laptop*/ Desktop/ MacBook/ Tabs/ Smart Phones (Android/iPhone)
- 2. Headphone/Earphone is mandatory.
- Chrome/Mozilla/Firefox/Microsoft Edge browser is enough for laptop*/desktop (Link will be provided via email to every student)
- 4. Collaborate space app is required for tabs/smart phones (Link will be provided via email to every student)
- 5. Internet connection with minimum speed of 512kbps (To fully enjoy class we recommend 4 MBPS connection/ 4G connection)
- 6. An isolated space / four wall side room without outside interferences to hear the classes properly and ask doubts without interference.

HOW TO ATTEND CLASSES?

- 1. Students will be provided with email before every class. Email will contain a unique link that will allow students to join the classes.
- 2. Choose an isolated space/four wall side room before joining the class.
- 3. Then click on the link, It will open in the browser or in the collaborate space app (if downloaded previously Tabs/ smart phones).
- 4. By default your mic and video will be off. It will ensure your privacy and it will make you classroom feeling.
- 5. Student can use raise hand feature (option available on screen) to ask any question. By raising hand, admin will open a 2 way communication with mic and video of student on display. So raise hand can work only if you allow your video and mic (to be shown).

* Laptop is more preferable

BEFORE THE CLASSES:

- 1. Student must provide **email ID** along with **mobile number** to the IMS. This will ensure free communication between the institute and student. Daily email will be sent with class link.
- 2. Student must have **decent internet connection** and all the assisting devices (laptop/desktop/smart phone etc. with earphones/headphones)
- 3. Attend the class in safe and isolated place/ four wall side room.
- 4. Do not attend the classes among the family persons/ among the friends/ public places/ in dangerous places like walking on the road side. (IMS does not hold any responsibility for accident caused in this manner).
- 5. Attend the class on time according to the class schedule.
- 6. Read study material before attending the class. It will increase/ensure you understanding of the topic.
- 7. If class(es) will be missed out by any student(s), no extra class(es) will be entertained.

DURING THE CLASSES:

- Maintain decency in the class. Any obscene Language/Gesture and activity will attract severe
 punishment.
- 2. If student raise hand, he/she has given permission to IMS to open audio-video link. So after raising hand either you cancel the raised hand or wait for you're turn to come on the screen and ask your doubt.
- 3. You can use chat option also which will be replied after the classes/accordingly.
- 4. Make notes of the lecture and solving problems are compulsory accordingly and attend the class sincerely.

AFTER THE CLASSES:

- 1. Complete the notes by referring study materials.
- 2. Complete the exercise which will be provided in the classroom etc.
- 3. Again students be ready/ prepare for next class in advance.
- 4. So, class will run smoothly with good understanding and interactive mode.

TERMS AND CONDITIONS:

- IMS (INSTITUTE OF MATHEMATICAL SCIENCES) is only presenting solution to online classes in it's best possible way. If any student is having any technical problem / subject understanding problem on online then students have right to give a suggestion to make this experience better.
- 2. If any student wants to turn into offline from online, prior information is required at the time of admission and vice versa.
- 3. Once course will be over class link will not be provided (by email conformation).
- 4. Particularly online students are allowed with one time payment only before the admission.
- 5. After depositing the fees, if a student disinterested or fails to join the classes in the institute due to any reason whatsoever and wants to take his/her fees (money) back, the institute will not refund the fees under any circumstances.

IMPORTANT NOTE:

- Sharing of the unique id and video recording / screen capturing is strictly prohibited under any circumstances. IP addresses will be recorded and any violation will be severely punished as per law, apart from necessary penalties.
- During the classes the students are expected to behave in a orderly and decent manner. Any
 obscene/ malafide behaviour or gesture will be punished as per IT Act and matter will be taken
 up with relevant authorities.
- Further, If IP address masking tools are used, the online access given to the student will be permanently terminated immediately without any discussion.

OUR TOPPER'S MARKS LIST (IAS)

- For your final selection, optional subject marks are crucial.
- Choose Optional Subject based on Your Graduation Studies & Score Highest Marks.
- Now Mathematics has become one of the most Cherished Optional Paper among Science Graduates, especially Students with Mathematics background including B.Tech.
- In the new pattern of exam, the average marks of successful candidates in Maths is more than 300 out of 500.
- Mathematics (Opt.) has proven to be the Most Reliable and High Scoring Subject in IAS/IFoS.
- IMS has been successfully providing consistent results since its inception.

The Civil Services Examination, the creme de la creme of all examinations, is also known as the toughest and the longest examination of India. Therefore, I consider it quite important to share my view points of the bright future of the aspiring candidates.

Though the CSE is a hard nut to crack but one could sail through this 'hurdle race' via strategic planning, consistent efforts, diligence, a patient and calm approach and most importantly with the belief in one's own potential.

The right selection of the optional is the pre requisite of a good rank in CSE. One must choose the optional keeping the following points in mind:

- 1. A subject of your interest.
- 2. Scoring pattern of that subject in past few years.
- 3. The availability of study material and
- 4. Expert guidance.

Ideally, the students should choose their subject of graduation or post graduation as their optional but then one must check their subject for its viability in the civil services examination keeping in consideration the aforementioned 4 points namely Criterion of interest, scoring pattern, availability of study material and expert guidance

As per the above mentioned criteria of choosing optional, Mathematics is one of the safest and most scoring optional in the Civil Services Examination. This is the only subject which allows the students a scope to score as high as 400+ marks in a new pattern of examination with one optional subject. The popular trends show that out of every 20 students, at least one student has Mathematics as one of his or her optional subject. Data shows that before the year 2000, The maximum number of students in the Civil services examination were the students who had taken Mathematics as their optional. However, with the change in the CSE pattern, students have started facing difficulty with mathematics as an optional due to the lack of availability of quality guidance and the confusion created by the labyrinth of false propagandist and mercantile, inefficient and inexperienced teachers.

However since the last few years, the popularity of the subject has increased as expert guidance keeping in view the need of the CSE is available now.

WHO CAN OPT IT?

The students who have studied B.Sc Mathematics/ B. Tech. can take Mathematics as the optional in this examination. In fact, Mathematics is one such optional which gives you the advantage of a much higher score than what one could manage with other humanities subjects and thus, the chances of getting the best ranks are much better. However, there is a certain phobia about choosing Mathematics as an optional amongst the students. Let us examine this problem through an observational analysis of the situation.

We can broadly categorize the science students, especially the ones from the Mathematics background who are aspiring for the CSE, into two categories. The first category is of those students who opt for

Mathematics as an optional in this prestigious examination. The second category is obviously those students. who do not opt for it. Talking about the former category, it is a group of self motivated, diligent students who already have a penchant for this subject. This category usually consists of those students who seem to eat, sleep and drink Mathematics. They are highly passionate about this subject and extremely devoted to it. However, It is the latter category of students who encourage me to delve into their mind set and explore the reasons for their decision. What I have discovered about the same is a disappointing fact of these students being beguiled and demotivated by the "opinion givers of the society. Even the illogical CSE theories created by the mercantile propagandists affects the psychology of these students by enticing them to select inconsequential and irrelevant optionals. Either they are discouraged enough to take the plunge with a safe subject which ultimately results in their sad failure despite rigorous hard work, or else they achieve the results only after investing insurmountable energies and irreversible time on a wrong decision.

I have a message for these students – 'Unleash your potential'; Go for something that channels your expertise in its best direction rather than going for something that has not been your area of excellence and interest. Choose the 'stepping stone' not the 'stumbling block'. Overcome your irrational fears and anxieties and make a prudent decision.

Mathematics is the most advantageous and the highest scoring optional. You have been solving Mathematics questions since elementary school. Think about it; After spending more than 15 years in the field of Mathematics, if you are being manipulated to change your path for an irrelevant option with just 6 months or one year of preparation, you are actually leaving your area of proficiency and are indirectly trying to take up the challenge of competing with the masters of their respective fields.

As IAS and IFoS are joined together, so there is an opportunity for the Mathematics optional students to write the IFoS exams along with the IAS exams simultaneously.

ROLE OF COACHING

The role of the coaching institute can never be underestimated in the preparation of CSE/IFoS. Expert guidance is a very crucial aspect for these preparations. The mentor facilitates the process of preparation and enables the student to savor the success in a strategized manner. One can score 80%+ in Mathematics with the help of professionally well equipped and qualitatively upgraded teaching inputs based on most meticulously and scientifically designed comprehensive guidance programme which allows conceptual clarification of all topics. Moreover, coaching institutes may prepare a system of rigorous written tests and feedback mechanisms. This is mandatory to ensure the updating of the student's conceptual and analytical knowledge reservoir as per the requirements of the latest emerging trends of the civil services examination.

An academy with its experience and professional efficiency can prove to be a catalyst to ensure absolute proficiency and perfection in the Subject.

PREPARATION STRATEGY FOR IAS/IFoS MATHEMATICS (OPT.)

by Successful Candidate

G. ROHITH AIR-35, IFoS-2017

MY BACKGROUND

I am G. Rohith. I have done my B.E in Computer Science Engineering from BITS Pilani, Hyderabad Campus. I Secured AIR-35 in Indian Forest Service Exam 2017. I had enrolled into class room programme of IMS (Institute of Mathematical Sciences) under guidance of K. Venkanna Sir.

Why Mathematics?

Every mark in competitive exams like IFoS and CSE counts and the optional subject should provide us the scope to outperform other optionals. There is no better optional in this regard than maths and history of topper marks with maths of last decade prove that.

Strategy of Preparation:

To excel in maths one need to have conceptual clarity other than working hard. In this aspect K. Venkanna Sir (IMS) has helped me a lot, especially in dealing with tougher topics like Modern Algebra and Real Analysis. His Class notes are perfectly sufficient and cover topics which even standard text books missed out on.

Test Series:

Maths preparation doesn't end with Completion of syllabus. It needs thorough practice. For this IMS Test Series Programme is must. Most of the questions in both IFoS and CSE appear from K. Venkanna Sir's Test Series. Test series would also help to rectify mistakes which otherwise could dearly cost in the final examination.

I would also like to take this opportunity to thanks K. Venkanna Sir who supported over the preparation years has been invaluable. I wish I had joined his classes much earlier.

DIPESH MALHOTRA

AIR-30, IFoS-2016

Hello Everyone

I am Dipesh Malhotra. I have done my B.Tech in Civil Engineering from IIT Roorkee. I have given Civil Services Exam and Forest Service Exam, 2016. I have got AIR 30 in Indian Forest Service Exam and waiting for my final result of CSE, 2016. I have taken coaching through classroom programme of IMS under the guidance of K. Venkanna Sir.

Why Mathematics?

Mathematics optional has few myths attached to it:—

- (i) It suits people from IITs only.
- (ii) It has a very vast syllabus.
- (iii) There is a huge scaling against it.
- (iv) It affects your G.S. preparation.

So, let me first breakdown these myths to help you make a informed decision regarding optional Results of last years show that many people from non-IIT institutes are able to get very good marks

in Maths. Most prominent among them is Rank-08 Nitish K. Maths optional requires temperance, hardwork and concentration in terms of preparation and not extra-ordinary intelligence. That's why cleaning IIT-JEE and CSE is a very different game altogether. So, its more of a psychological thing rather than a meaningful idea.

Comparing the level of syllabus with social sciences/ humanities syllabus gives a partial picture of the relative length. Every chapter may seem very lengthy in maths but that is the only limited part that one has to study for maths. On the other hand for humanities optional you have to study many other things not mentioned in syllabus creating two types of problem (a) Uncertainty and (b) Increased burden. So, in my opinion maths is one of the safe optional given the kind of result and uncertainty that surrounds other optionals.

Scaling is a scientific statistical tool used by UPSC to bring different optional on a same level playing field. However, when raw checking of answer sheets of different optional are done marks are awarded in an objective manner.

Therefore, marks in science optional especially mathematics would come out to be very high as around 90% of marks are awarded for right answer. Humanities answers always have subjectivity attached to them. Therefore, they get around 50-60% marks for correct attempt. Scaling causes 15-20% lowering of low marks that still makes maths to retain enviable position in marks tally.

There is a very big misconception in preparation circles that optional helps you in G.S. (General Studies) preparation. G.S. answers require a very different approach in terms of diversity and multi-dimensionality. Optional knowledge can be used as a foot-note and not as a main theme of a G.S. answer. Given, the changing nature of prelims and mains G.S. papers, knowledge of humanities optional is not going to help in future. So, in my opinion maths can give you better opportunity in terms of marks and certainty to clean the exam.

What should be the strategy of preparation?

Mathematics require large amount of practice, clarity and revision. Given the limited nature of sources and syllabus this seems to be a easy task. But it is easier said than done.

So, in order to bring clarity one needs to be very through with the concepts and fundamentals. For this I would recommend IMS classroom programme and notes prepared by venkanna Sir. It will make your preparation easy and focused as different topics are available at one place and in a more exam focused manner. Venkanna Sir in a very student friendly manner that makes you very comfortable in that environment and helps to clear doubts. After that you can go for certain basic books for practice and some specific set of problems. But those things are also guided well by Sir himself.

For practice purpose various tutorial sheets provided by institute are very helpful.

At the same time it should be kept in mind all the concepts and problems from IMS should be practiced first hand and then go for books. Test series by IMS helps in revision and practice as all the books problems and previous year questions are prepared and covered well.

So, few basic points are very important:—

- (1) Continuous preparation from first.
- (2) Revision and practice of those notes.
- (3) Some specific and typical problems from books.
- (4) IMS Test series.
- (5) Formulae shout notes to be used before exam and tests.

For preparation chronology I would recommend going for easy and scoring topics first like ordinary differential equations, partial differential equations, linear algebra, vectors, numerical analysis, complex analysis, LPP etc. Some topics like statics and dynamics as well as mechanics have to be prepared thoroughly given the changing nature of exam. For them go for all previous year questions and basic concepts.

Do not try to go into very deep physics as ultimate aim is to score well and not to become a physicist.

At the end of preparation and near the exam, one faces problem of revision – So, I would recommend following points:—

- (1) Summary of chapters
- (2) Formulae sheets.
- (3) Test Series.

Reason I am stressing on test series are following:—

- (1) It helps to get into touch with all type of problems
- (2) Give an idea relating to format of presentation in exam.
- (3) Real-time and real-exam simulation to get an experience to handle stress.
- (4) Habit of writing well will not develop overnight. So, constant grilling before exam is required.

KUMBHEJKAR YOGESH VIJAY

AIR-8, IAS-2015 & AIR-13, IFoS-2014 & AIR-143, IAS-2014.

MY BACKGROUND

I am Yogesh Kumbhejkar. I am an Electrical Engineer from IIT Bombay. I secured AIR 8 in IAS 2015, AIR-143 in IAS 2014 Examination with Mathematics optional, AIR 13 in Indian Forest Service Exam (IFoS) 2014 with Mathematics & Physics as the optional subjects. In 2015 CSE Mains, I scored 298/500 (126+172) in Maths, In IFoS 2014 exam, my maths score was 231/400 (118 + 113). In 2013 CSE Mains, my maths score was 250/500 (109 + 141). Hence mathematics has helped me in clearing mains in both CSE and IFoS. I was not selected in the final list of CSE 2013. In my second CSE attempt also I appeared for mains in 2014 with Maths as the optional subject. Now I am awaiting the Mains result. This article is a humble attmept to share my experience of maths optional preparation for CSE/IFoS exam. I would be glad if it helps any UPSC aspirant who is not clear about choice the optional or those who are already preparing with mathematics as their optional.

WHY MATHEMATICS

It is very important for a UPSC aspirant to have genuine interest in mathematics if he/she wants to choose this optional. Maths used to be my favourite subject in school and in IITB also I had pursued additional courses in mathematics out of interest. Since the syllabus is large & requires considerable practice, it is necessary to have a genuine interest. Apart from my inherent inclination, this optional offers certain advantages which made it an obvious choice. In this optional, the marks you get are almost proportional to your efforts. With proper hard work, a candidate can comfortably attempt all the questions in exam and expect to score around 50% marks even after heavy scaling which can offer the necessary edge in this intense competition. Such candidate generally would not find any question surprising in mains. This kind of certainity is not present in humanities optionals.

THE SYLLABUS

The prescribed syllabus for maths is quite large which makes it necessary to stick to limited sources. I relied on notes provided by Venkanna Sir at IMS for covering the syllabus. Since these notes were very comprehensive, I didn't have to spend time scanning reference books for relevant material. Venkanna Sir's classroom coaching helped me in completing the syllabus in a disciplined manner. Initially I would underline important theorems, formulae, results mentioned in the notes. Then I used to compile them in a notebook and this was useful for revision. So eventually I had a notebook with just the crux of the matter. I would advise all candidates with maths optional to prepare such a summary for all topics. Due to large syllabus, there is a natural tendancy to skip a few chapters. But for the sake of compulsory questions, it is necessary to know at least basics of each chapter. The physics related chapters of statics, dynamics, mechanics are generally left untouched while preparing maths optional. Regarding these chapters, my preparation was such that I would be able to solve the compulsory 10 mark questions. They are quite manageable once you know the basic theory and there is no point in unnecessarily losing marks. The real analysis/calculus & modern algebra chapters are time consuming but candidates can't afford to skip them.

PRACTICE

Just knowing theory is not enough. It needs to be accompanied by consistent problem solving practice. It is best to solve questions that have already been asked in mains. If some problem seems very non-

intuitive, it would help if the trick to solve such problem is written in your notebook.

TEST SERIES

Test series is very important for this optional. I had joined IMS test series which helped me in identifying my weak areas. In both CSE and IFoS mains, there were many questions similar to those covered in IMS test series. With enough practice, a candidate can achieve the ability to complete the maths paper in 3 hours. It is important to assess your performance after each test. Necessary steps should be taken to rectify common mistakes that you are committing in the test series. You should be alert not to repeat the same mistakes again & again. As your performance improves with every test, the actual mains paper will seem just like any other test & you will be able to comfortably complete it. Presentation of your answer matters a lot. Your aim should be to make examiner's life as easy as possible so that he/she will award you maximum marks. Only the final answer doesn't matter. Writing proper steps is also important to show the logical flow with which you arrived at the solution. I want to specifically mention whichever theorem or property you are using in a particular step. Wherever possible, draw neat diagrams with proper labeling. Such small things will collectively fetch you the extra marks that you are expecting from this optional. The habit of writing such detailed answers will not develop overnight and hence you have to consciously work through the test series in this direction.

DURING MAINS

The mains exam schedule does not provide much gap between General Studies &Maths papers. You will generally have 1 day in between. Your notebook containing important formulae & theorems will be very useful at such times. You will be able to go through this summary of each chapter and it will provide much needed confidence before the actual paper. During the main exam, I would advise completing the compulsory questions 1 & 5 first. Then you can choose 3 out of remaining 6 questions. Easier questions like those from topics like linear programming, numerical analysis, linear algebra etc. should be the priority. Even if you don't know the complete answer to any question, write as many steps as you can since partial marks also matter.

Once you finish paper 1, don't start immediately analyzing your performance. Irrespective of whether you are very happy or deeply unsatisfied about paper 1, try to forget about it and stay calm for paper 2.

INTERVIEW

In the interview, you can expect some questions related to mathematics optional. Generally you won't be asked to solve a problem because that ability has been tested in mains. They would like to see whether you have a genuine curiosity regarding mathematics outside what is mentioned in syllabus. In both my UPSC interviews, I was asked about Ramanujan's work. There were questions on Vedic Mathematics, National Mathematics Day, important Indian Mathematical Institutions, Field medalist Manjula Bhargava etc. Hence while preparing for interview, try to be aware about these non-theorotical aspects of maths as well.

PADMANABH BARUAH AIR-194, IAS-2015

I am Padmanabh Baruah. I graduated in Mechanical Engineering from IIT Guwahati in 2013. I started working in an MNC after my graduation and worked there for about 5 months. After that I went home and stayed for 6 months. It was during this period that I thought about what career option I should undertake. After much thinking and deliberation, I came to the conclusion that I would try to get into the Indian Civil Services and it was from here that my journey for Civil Services start.

I came to Delhi in July, 2014 to start my preparation. As I had decided on this career option just before a month or two, I had to start everything from scratch as I had never before prepared for this examination. I took admission into a coaching institute for my GS preparation. I had not decided on my optional as yet. I consulted some seniors regarding which optional I should take and a variety of suggestions came up – geography, psychology, political science etc. But I was not very sure about these subjects as I had never studied them till that time. Then I thought to myself that why not Mathematics. I had been very fond of this subject during my schooling and even in college. But the response I got from those who I consulted was not very positive — everyone kept on saying that it is a very difficult optional subject. Some of the disadvantages they mentioned were — there is no common portion with GS, the syllabus is very vast as compared to humanities, there is no proper guidance etc. Despite this, I had a gut feeling that I should take Mathematics because this is what I had been studying from a long time and if I get some good guidance, I would be able to overcome the difficulties.

It was at this stage that I came to know about IMS mostly through the internet. I enquired in IMS and took up a classroom program in September 2014. Today, when I look back, it seems that it was a very good decision that I took at that time. I cleared the Civil Services Examination 2015 in the first attempt with an AIR 194 only because of my decent marks in Mathematics. My score in GS was quite average, it was only Mathematics which gave me a good rank.

My coaching in IMS helped me tremendously because till I had started the coaching, I had absolutely no idea about what to study and how to go about the subject. The benefit of the coaching was that the entire syllabus was covered in a concise way. I did not have to go around searching for books or common questions or any other sort of material. Everything was provided in the material from the coaching centre and my duty was to finish the material and revise them again and again. I depended only on the material provided and did not consult any other book. I kept up with the pace of the classes and thus could finish the syllabus chapter by chapter accordingly as Venkanna sir proceeded.

Once the prelims was over, I started the Test Series with IMS. The test series is very crucial when you are revising and doing the final preparation for the mains. This is because Mathematics is about practicing the same thing again and again - this came with the test series. I gave about 16 tests and in all the tests, I revised the entire syllabus repeatedly.

Therefore, when the Mains Examination came, I did not feel much nervousness as I had already sat for similar tests so many times.

Finally, I would like to say that if you are from a background where you had to deal with mathematics in some way or the other, or you were good at this subject in school or college, you should seriously considering choosing this subject as your optional because if you work hard and are regular with Mathematics, it will pay off handsomely. Mathematics, like any other subject for UPSC CSE can be prepared on your own too; but if you are short in time and would like to finish the subject at the earliest, you can consider taking up a coaching class. This is because, as I mentioned earlier, it gives you all the material and guidance at one place and you do not need to run around searching for the correct book. I hope some of the things that I said would be of help to those who want to take mathematics.

PARTH JAISWAL

AIR-5, IFoS-2014 & AIR-299 IAS-2014

MY BACKGROUND

Hello, My name is Parth Jaiswal. I come from Jaipur, Rajasthan. I completed my graduation in Computer Science discipline from IIT Delhi in 2013. Soon afterwards I started preparing for Civil services and Indian Forest Service, aiming for the attempt of year 2014.

Luckily, I was able to clear both the examinations in my first attempt. I secured AIR-5 in IFoS-2014 and AIR-299 in CSE-2014. My optional subject was Mathematics. In case of Forest Service Examination, candidate is required to choose 2 Optionals, thus my second optional was Forestry with Mathematics as my first optional. I secured 250/400 (125+125) marks in IFoS Exam and 300/500 (147+153) marks in CSE in Maths. Thus I would give much credit for my success to my correct choice of optional as well as performance in it. I am writing this to share my experience with Maths as an optional subject and it would make me feel happy if I am able to clear some of the doubts as well as apprehensions regarding it, which many UPSC aspirants have.

Why I Chose Mathematics?

I chose **Mathematics** because of my inherent interest in it from childhood. I have performed well in this in my throughout education and thus was confident enough to handle it well. Another reason for choosing Math optional that I wanted to have my optional from my background and thus Maths proved to be appropriate choice. Having a science background, I found it much easier to study than any other subject, many of which we have to study for GS prep.

I would like to assert few points regarding it very clearly.

- This subject is vast in syllabus and takes more time to study than other optional.
- It also requires consistent practice. But the positive part is If you are thorough with the subject

and have practiced it well, you can comfortably attempt complete paper with correct answers and thus gives you a great opportunity to score well in your optional (in spite of the scaling often carried out in it) pushing you above the list.

In this way, this optional gives a bit of security as well as certainty which again comes at a price i.e great amount of hard work. Also IFoS Exam prescribes certain optionals only and Mathematics is one of them. Not all optionals are available for this exam.

So again it gives you the flexibility of giving IFoS Exam.

From where to study?

I attended classroom coaching of IMS, Rajinder Nagar. I restricted my preparation to the handouts provided by Venkanna Sir. Because of the voluminous syllabus, it is necessary to gauge the point where you have to stop. I found that the notes quite comprehensive and provided me a holistic coverage of the syllabus in a highly structured manner. I believe that those notes are sufficient from the theory point of view.

For practicing questions which is of utmost importance, I solved all the questions given in the notes (whether solved or unsolved) multiple times in my registers. Besides that, I solved the questions of previous year papers provided by sir, again multiple times. I restricted my preparation upto this point. But if any student faces difficulty in understanding any particular topic or finds notes insufficient for it or wants to practice more, he/she can use any reference book for any particular topic which can easily be found on internet or available in market.

A word of caution, try to limit your preparation to the concepts relevant to the syllabus and don't delve into unnecessary theorems or proofs otherwise its a slippery slope to a massive ocean. We tend to skip the proofs of various theorems provided in the syllabus while studying them as they are of not much use. Proofs of theorems are generally not asked in the exams. But still I used to go through each and every proof in a brief manner provided in the notes. The reason being it would give me a better insight of the topic and often helped me to develop problem slowing attitude towards Mathematics.

Test Series

No optional is complete without writing a test series and it holds true in Maths also. Test Series is as important in your preparation as your notes + books. Firstly, Test Series is the best mode of judging your preparation. You can fairly evaluate your performance with your marks and then focus on the weak topics. Secondly, its a rehearsal of Mains Exam and thus helps you greatly in time management.

Mains exam is nearly a marathon for your hand and thus you get very much trained for facing them. Test Series also provided me another pool of questions to practice. They also helped in developing the ability of answer writing which definitely can't be developed overnight. I have attended Test Series of IMS and luckily many questions of Test Series appeared in both IFoS Exam and CSE. I would also request all the candidates to give the test series by coming to classroom if possible and stick to the time lines as it really helps in completion of syllabus.

I hope this write-up will clear some of the doubts of students and give clarity on Maths optional to UPSC IAS aspirants. All the Best

If anyone wants to contact me, please drop me an email - parthjaiswal512@gmail.com. I will be more than happy to help you.

SYLLABUS for IAS (Main) Examination

PAPER-I

(1) Linear Algebra

Vector spaces over R and C, linear dependence and independence, subspaces, bases, dimension; Linear transformations, rank and nullity, matrix of a linear transformation.

Algebra of Matrices; Row and column reduction, Echelon form, congruence's and similarity; Rank of a matrix; Inverse of a matrix; Solution of system of linear equations; Eigenvalues and eigenvectors, characteristic polynomial, Cayley-Hamilton theorem, Symmetric, skew-symmetric, Hermitian, skew-Hermitian, orthogonal and unitary matrices and their eigenvalues.

(2) Calculus

Real numbers, functions of a real variable, limits, continuity, differentiability, mean-value theorem, Taylor's theorem with remainders, indeterminate forms, maxima and minima, asymptotes; Curve tracing; Functions of two or three variables: limits, continuity, partial derivatives, maxima and minima, Lagrange's method of multipliers, Jacobian.

Riemann's definition of definite integrals; Indefinite integrals; Infinite and improper integrals; Double and triple integrals (evaluation techniques only); Areas, surface and volumes.

(3) Analytic Geometry

Cartesian and polar coordinates in three dimensions, second degree equations in three variables, reduction to canonical forms, straight lines, shortest distance between two skew lines; Plane, sphere, cone, cylinder, paraboloid, ellipsoid, hyperboloid of one and two sheets and their properties.

(4) Ordinary Differential Equations

Formulation of differential equations; Equations of first order and first degree, integrating factor; Orthogonal trajectory; Equations of first order but not of first degree, Clairaut's equation, singular solution.

Second and higher order linear equations with constant coefficients, complementary function, particular integral and general solution.

Second order linear equations with variable coefficients, Euler-Cauchy equation; Determination of complete solution when one solution is known using method of variation of parameters.

Laplace and Inverse Laplace transforms and their properties; Laplace transforms of elementary functions. Application to initial value problems for 2nd order linear equations with constant coefficients.

(5) Dynamics & Statics

Rectilinear motion, simple harmonic motion, motion in a plane, projectiles; constrained motion; Work and energy, conservation of energy; Kepler's laws, orbits under central forces.

Equilibrium of a system of particles; Work and potential energy, friction; common catenary; Principle of virtual work; Stability of equilibrium, equilibrium of forces in three dimensions.

(6) Vector Analysis

Scalar and vector fields, differentiation of vector field of a scalar variable; Gradient, divergence and curl in cartesian and cylindrical coordinates; Higher order derivatives; Vector identities and vector equations.

Application to geometry: Curves in space, Curvature and torsion; Serret-Frenet's formulae. Gauss and Stokes' theorems, Green's identities.

SYLLABUS for IAS (Main) Examination

PAPER-II

(1) Algebra:

Groups, subgroups, cyclic groups, cosets, Lagrange's Theorem, normal subgroups, quotient groups, homomorphism of groups, basic isomorphism theorems, permutation groups, Cayley's theorem.

Rings, subrings and ideals, homomorphisms of rings; Integral domains, principal ideal domains, Euclidean domains and unique factorization domains; Fields, quotient fields.

(2) Real Analysis:

Real number system as an ordered field with least upper bound property; Sequences, limit of a sequence, Cauchy sequence, completeness of real line; Series and its convergence, absolute and conditional convergence of series of real and complex terms, rearrangement of series.

Continuity and uniform continuity of functions, properties of continuous functions on compact sets.

Riemann integral, improper integrals; Fundamental theorems of integral calculus.

Uniform convergence, continuity, differentiability and integrability for sequences and series of functions; Partial derivatives of functions of several (two or three) variables, maxima and minima.

(3) Complex Analysis:

Analytic functions, Cauchy-Riemann equations, Cauchy's theorem, Cauchy's integral formula, power series representation of an analytic function, Taylor's series; Singularities; Laurent's series; Cauchy's residue theorem; Contour integration.

(4) Linear Programming:

Linear programming problems, basic solution, basic feasible solution and optimal solution; Graphical method and simplex method of solutions; Duality.

Transportation and assignment problems.

(5) Partial differential equations:

Family of surfaces in three dimensions and formulation of partial differential equations; Solution of quasilinear partial differential equations of the first order, Cauchy's method of characteristics; Linear partial differential equations of the second order with constant coefficients, canonical form; Equation of a vibrating string, heat equation, Laplace equation and their solutions.

(6) Numerical Analysis and Computer programming:

Numerical methods: Solution of algebraic and transcendental equations of one variable by bisection, Regula-Falsi and Newton-Raphson methods; solution of system of linear equations by Gaussian elimination and Gauss-Jordan (direct), Gauss-Seidel(iterative) methods. Newton's (forward and backward) interpolation, Lagrange's interpolation.

Numerical integration: Trapezoidal rule, Simpson's rules, Gaussian quadrature formula.

Numerical solution of ordinary differential equations: Euler and Runga Kutta-methods.

Computer Programming: Binary system; Arithmetic and logical operations on numbers; Octal and Hexadecimal systems; Conversion to and from decimal systems; Algebra of binary numbers.

Elements of computer systems and concept of memory; Basic logic gates and truth tables, Boolean algebra, normal forms.

Representation of unsigned integers, signed integers and reals, double precision reals and long integers.

Algorithms and flow charts for solving numerical analysis problems.

(7) Mechanics and Fluid Dynamics:

Generalized coordinates; D' Alembert's principle and Lagrange's equations; Hamilton equations; Moment of inertia; Motion of rigid bodies in two dimensions.

Equation of continuity; Euler's equation of motion for inviscid flow; Stream-lines, path of a particle; Potential flow; Two-dimensional and axisymmetric motion; Sources and sinks, vortex motion; Navier-Stokes equation for a viscous fluid.

SYLLABUS for IFoS (Main) Examination

PAPER - I (Section-A)

Linear Algebra:

Vector, space, linear dependence and independence, subspaces, bases, dimensions. Finite dimensional vector spaces. Matrices, Cayley-Hamilition theorem, eigen-values and eigenvectors, matrix of linear transformation, row and column reduction, Echelon form, equivalences, congruences and similarity, reduction to cannonical form, rank, orthogonal, symmetrical, skew symmetrical, unitary, hermitian, skewhermitian forms- their eigenvalues. Orthogonal and unitary reduction of quadratic and hermitian forms, positive definite quardratic forms.

Calculus:

Real numbers, limits, continuity ,differentiability, mean-value theorems, Taylor's theorem with remainders, indeterminate forms, maxima and minima, asymptotes. Functions of several variables: continuity, differentiability, partial derivatives, maxima and minima, Lagrange's method of multipliers, Jacobian. Riemann's definition of definite integrals, indefinite integrals, infinite and improper integrals, beta and gamma functions. Double and triple integrals (evaluation techniques only). Areas, surface and volumes, centre of gravity.

Analytical Geometry:

Cartesian and polar coordinates in two and three dimensions, second degree equations in two and three dimensions, reduction to cannonical forms, straight lines, shortest distance between two skew lines, plane, sphere, cone, cylinder, paraboloid, ellipsoid, hyperboloid of one and two sheets and their properties.

(Section-B)

Ordinary Differential Equations:

Formulation of differential equations, order and degree, equations of first order and first degree, integrating factor, equations of first order but not of first degree, Clariaut's equation, singular solution. Higher order linear equations with constant coefficients, complementary function and particular integral, general solution, Euler-Cauchy equation.

Second order linear equations with variable coefficients, determination of complete solution when one solution is known, method of variation of parameters.

Dynamics, Statics and Hydrostatics: Degree of freedom and constraints, rectilinear motion, simple harmonic motion, motion in a plane, projectiles, constrained motion, work and energy, conservation of energy, motion under impulsive forces, Kepler's laws, orbits under central forces, motion of varying mass, motion under resistance.

Equilibrium of a system of particles, work and potential energy, friction, common catenary, principle of virtual work, stability of equilibrium, equilibrium of forces in three dimensions.

Pressure of heavy fluids, equilibrium of fluids under given system of forces, Bernoulli's equation, centre of pressure, thrust on curved surfaces, equilibrium of floating bodies, stability of equilibrium, meta-centre, pressure of gases.

Vector Analysis:

Scalar and vector fields, triple products, differentiation of vector function of a scalar variable, gradient, divergence and curl in Cartesian, cylindrical and spherical coordinates and their physical interpretations. Higher order derivatives, vector identities and vector equations.

Application to Geometry:

Curves in space curvature and torision. Serret-Frenet's formulae, Gauss and Stokes' theorems, Green's identities.

PAPER - II (Section-A)

Algebra:

Groups, sub-groups, normal subgroups, homomorphism of groups, quotient groups, basic isomorphism theorems, Sylow's group, permutation groups, Cayley theorem, rings and ideals, principal ideal domains, unique factorization domains and Euclidean domains. Field extensions, finite fields.

Real Analysis:

Real number system, ordered sets, bounds, ordered field, real number system as an ordered field with least upper bound property, Cauchy sequence, completeness, Continuity and uniform continuity of functions, properties of continuous functions on compact sets. Riemann integral, improper integrals, absolute and conditional convergence of series of real and complex terms, rearrangement of series, Uniform convergence, continuity, differentiability and integrability for sequences and series of functions. Differentiation of functions of several variables, change in the order of partial derivatives, implicit function theorem, maxima and minima, Multiple integrals.

Complex Analysis:

Analytic function Cauchy-Riemann equations, Cauchy's theorem, Cauchy's integral formula, power series, Taylor's series, Laurent's Series, Singularities, Cauchy's residue theorem, contour integration, Conformal mapping, bilinear transformations.

Linear Programming:

Linear programming problems, basic solution, basic feasible solution and optimal solution, graphical method and Simplex method of solutions, Duality. Transportation and assignment problems, Travelling salesman problems.

Section-B

Partial differential equations:

Curves and surfaces in three dimensions, formulation of partial differentiation equations, solutions of equations of type dx/p=dy/q=dz/r; orthogonal trajectories, Pfaffian differential equations; partial differential equation of the first order, solution by Cauchy's method of characteristics; Charpit's method of solutions, linear partial differential equations of the second order with constant coefficients, equations of vibrating string, heat equation, Laplace equation.

Numerical analysis and Computer programming:

Numerical methods: solution of algebraic and transcendental equations of one variable by bisection, Regula-Falsi and Newton-Raphson methods, solution of system of linear equations by Gaussian elimination and Gauss-Jordan (direct) methods, Gauss-Seidel (iterative) method. Newton's (Forward and backward) and Lagrange's method of interpolation.

Numerical integration:

Simpson's onethird rule, tranpezodial rule, Gaussian quardrature formula.

Numerical solution of ordinary differential equations:

Euler and Runge Kuttamethods. Computer Programming: Storage of numbers in computers, bits, bytes and words, binary system, arithmetic and logical operations on numbers, Bitwise operations. AND, OR, SOR, NOT, and shift/rotate operators, Octal and Hexadecimal Systems. Conversion to and form decimal Systems. Representation of unsigned integers, signed integers and reals, double precision reals and long integers.

Algorithms and flow charts for solving numerical analysis problems. Developing simple programs in Basic for problems involving techniques covered in the numerical analysis.

Mechanics and Fluid Dynamics:

Generalised coordinates, constraints, holonomic and non-holonomic, systems, D' Alembert's principle and Lagrange's equations, Hamilton equations, moment of inertia, motion of rigid bodies in two dimensions. Equation of continuity, Euler's equation of motion for inviscid flow, stream-lines, path of a particle, potential flow, two-dimensional and axisymetric motion, sources and sinks, vortex motion, flow past a cylinder and a sphere, method of images. Navier- Stokes equation for a viscous fluid.

★ STRATEGY FOR ATTENDING CLASSES ★

Student May Attend Classes in the Following Way

(if possible)

	SESSION	DAY	COURSE DURATION
A ttend	1 Session	Per Day	Around 9-10 Months
Regular +	2 Sessions	Per Day	Around 5-6 Months
Weekend	3 Sessions	Per Day	Around 4-5 Months
	4 Sessions	Per Day	Around 3-4 Months
Attend Weekend (Only)	4 Sessions	Per Day	Around 7-8 Months

REGULAR CLASSES

(Monday to Friday)

BATCH-01: 07:00am to 09:30am **BATCH-02:** 11:15am to 01:45pm **BATCH-03:** 02:15pm to 04:45pm **BATCH-04:** 05:15pm to 07:45pm

WEEKEND CLASSES

(Saturday & Sunday)

BATCH-01: 07:00am to 09:30am BATCH-02: 11:15am to 01:45pm BATCH-03: 02:15pm to 04:45pm BATCH-04: 05:15pm to 07:45pm

Note: Different Batches with different chapters (topics).

- It is expected that the regular students (non-working) have to attend 7 days classes.
- Student may attend multiple classes with prior permission. (If Online/Offline Classroom Space is available)
- Can study multiple chapters simultaneously (if interested).
- Complete your syllabus at your own pace.
- Convenience of choosing flexible timings to balance your GS preparation.
- You will have enough time in hand for self-study after syllabus completion.

Note: Class Test will be conducted after completion of every chapter followed by feedback & detailed explanation/discussion.

ONE DAY ONE CHAPTER PROGRAMME

IMS CONDUCTS SPECIAL FAST TRACK CLASSES

(Occasionally) on Fridays from 8:00am to 8:00pm.

- The Fast Track batches students are strictly advised to attend the Regular and Weekend classes.
- With these classes (Fast Track + Regular + Weekend) IMS ensures that the entire syllabus to be covered in just 3 months period.

Only IMS Provides Scientific, Innovative Teaching Methodologies, Fully Revised Study Materials & Test Series.

HEAD OFFICE: 25/8, OLD RAJENDER NAGAR, DELHI-60. BRANCH OFFICE: 105-106, TOP FLOOR, MUKHERJEE TOWER MUKHERJEE NAGAR, DELHI-9. NO. 1 INSTITUTE FOR IAS/IFOS EXAMINATIONS

IAS/IFOS MATHEMATICS Advanced Mains Test Series Programme-2023

Under the guidance of K. Venkanna

Time Duration: 3Hrs Max. Marks: (IAS 250) & (IFoS 200)

S.No.	TESTS	DATE	TOPICS TO BE COVERED			
1.	Test I	04-Dec2022	Linear Algebra, Calculus and Three Dimensional Geometry			
2.	Test 2	18-Dec2022	Algebra, Real Analysis and Complex Analysis & LPP			
			(Linear Programming Problem)			
3.	Test 3	25-Dec2022	ODE (Ordinary Differential Equations), Dynamics & Statics			
			and Vector Analysis.			
4.	Test 4	08-Jan2023	PDE (Partial Differential Equations), Numerical Analysis & Computer			
			Programming and Mechanics & Fluid Dynamics			
5.	Test 5	22-Jan2023	Full Syllabus (Paper-I) Available in ONLINE			
6.	Test 6	29-Jan2023	Full Syllabus (Paper-II) OFFLINE			
7.	Test 7	05-Feb2023	Full Syllabus (Paper-I)			
8.	Test 8	12-Feb2023	Full Syllabus (Paper-II)			
9.	Test 9 & 10	19-Feb2023	Full Syllabus (Paper-I & Paper-II)			
10.	Test & 2	26-Feb2023	Full Syllabus (Paper-I & Paper-II)			

OLD RAJINDER NAGAR, DELHI 10:00AM TO 1:00PM

MUKHERJEE NAGAR, DELHI 10:00AM TO 1:00PM

ASHOK NAGAR, HYDERABAD 10:00AM TO 1:00PM

Absolutely the test copies will be checked by Mr. K. VENKANNA (only). Detailed solutions will be provided of each Test

HEAD OFFICE: 25/8 Old Rajendra Nagar Market, Delhi-60. Ph.: 011-45629987, 9999197625

Branch Office: 105-106, Top Floor, Mukherjee Tower, Mukherjee Nagar, Delhi-9.

Regional Office: H.No. 1-10-237, 2nd Floor, Room No. 202 R.K'S-Kancham's Blue Sapphire Ashok Nagar Hyderabad-20. Ph.: 09652351152, 09652661152

The aspirants who want to take admission in our institute, they can take admission for all class room programs (IAS/IFoS Examination) by depositing TOTAL FEE is ₹ 65,000/- otherwise pay ₹ 35,000/- as a REGISTRATION FEE to book your seat.

For Test Series programme TOTAL FEE is ₹ 16000/-

For IAS/IFoS Mathematics correspondence study material TOTAL FEE is ₹ 14000/-

Students can pay fee by different payment modes Cash or Demand Draft (DD) in favour of Institute of Mathematical Sciences (or) online transfer to the A/C No.060363300000378 and IFSC code No. YESB0000603. The balance should be submitted at least three days before the commencement of classes.

The seats are limited therefore the candidates are requested to take admission as soon as possible and reserve their seat in advance within the stipulated time so that they should not have to face any problem in admission. Once the seats will be filled, no admission will be entertained.

Follow the following steps for Registration:

Bank / Online Transfer Details:

Bank Name: Yes Bank

A/c Name : I.M.S.(Institute of Mathematical Sciences)

A/c No. : 060363300000378 IFSC Code : YESB0000603

Cheque / Demand Draft:

In Favour of : Institute of Mathematical Sciences

Payable At : New Delhi

Cash Deposit at Centres:

Head Office: 25/8, Old Rajender Nagar Market, Delhi-110060.Ph.No.: 01145629987, 09999197625

Branch Office:105-106, Top Floor, Mukherjee Tower, Mukherjee Nagar, Delhi-110009
